LYAC raised \$525 from a silent auction of a signed Maineiacs jersey on Friday night. PUBLIC HEARING AND FIRST PASSAGE FOR LAND USE CODE AMENDMENTS CONCERNING WIRELESS COMMUNICATION FACILITIES

911 Director Andy D'eraimo and 911 Technical Director Terry Delano made a brief presentation regarding the ordinance, noting there have been recent issues regarding interference with public safety communications equipment and this ordinance language should work to prevent that. Mr. D'eraimo noted this same ordinance has already passed in Auburn. Mayor Gilbert opened the public hearing for citizen input and comment. No members of the public spoke for or against this item. Mayor Gilbert then closed the hearing. Councilor T. Peters asked about issues that are

not addressed in the ordinance, such as ham radio operators interference with telephones. City Planner David Hediger said that some of the issues are beyond the authority of the city and are regulated by the FCC. Councilor Theriault inquired about any design standards, such as screening of antennas and satellite dishes.

Motion by Councilor T. Peters, seconded by Councilor Reed:

**PUBLIC HEARING AND FIRST PASSAGE FOR LAND USE CODE AMENDMENTS
REGARDING LARGE SCALE RETAIL DEVELOPMENTS**

Lincoln Jeffers, Economic Development Assistant to the City Administrator, made a presentation regarding this item, noting it is modeled after the State's Informed Growth Act. Councilor Theriault stated he is in support of this ordinance, saying it will create a good development-friendly atmosphere. The City Administrator noted if this ordinance is on the books, the city planning process is in control of large scale development decisions and this creates greater local control. Councilors discussed the proposed peer review process requirement.

Mayor Gilbert opened the public hearing for citizen input and comment. Dale McDonald expressed the need to support small business first. Monique Harris of Bartlett Street suggested keeping the requirement of an impact study as an independent study to ensure the best intent of Lewiston residents is served. Craig Saddlemire of Spruce Street suggested having the Planning Board hire a consultant to do the analysis. Bruce Damon of the Planning Board said the Board studied these issues quite a bit, noting the cost of consultant reports is limited to \$40,000 at the state level. The Board did not want to limit the cost of studies and only get a limited quality review. He noted the expense of traffic studies alone. Daphne Loring of Goddard Road stated she is a member of the Maine Fair Trade Campaign and said the economy needs to be responsive to people and the environment, stating the study does not determine the permit, it is only one piece of the process. She urged the requirement of an independent study and said the \$40,000 cap can be removed. She noted a conflict of interest if the consultant is hired by the developer. Mayor Gilbert then closed the hearing.

VOTE (91-2008)

Motion by Councilor T. Peters, seconded by Councilor Theriault:

That the proposed amendment to Appendix A, Article XIII "Development Review and Standards", Section 14, "Additional standards for large-scale retail development", of the City Zoning and Land Use Code, receive first passage by a roll call vote and that the public hearing on said ordinance be continued to the next regular City Council meeting.
